

SE04 PROMOTE EMERGENCY RESOURCES | O (MAX: 1 PT)

Intent: Provide resources, personnel and training to help organizations, families and individuals respond to diverse emergency situations.

Summary: This feature requires projects to offer resources like first aid kits and AEDs, coordinate with emergency response teams and provide emergency preparedness and response trainings.

Issue: It is estimated that sudden cardiac arrest (SCA) causes between 6.8 – 8.5 million deaths worldwide per year, with a global survival rate of less than 1%; in the United States, where SCA is a leading cause of death, about 10,000 SCA deaths per year occur in the workplace.^{108,109} An SCA victim's chances of survival lower by 7-10% with every minute that passes without cardiopulmonary resuscitation (CPR) or defibrillation.¹¹⁰ Additionally, nearly 16,000 people worldwide die from preventable injuries each day, yet in most European countries, only 5-10% of the population is trained in first aid.^{111,112} While natural disasters kill an average of 90,000 people annually, nearly 60% of American adults have not practiced what to do in a disaster.^{49,113} Finally, anaphylaxis causes up to 1,500 deaths per year in the U.S., with studies showing a delay in administering epinephrine to be a significant risk factor associated with fatal outcomes from allergen exposure.^{114–116}

Solutions: Rapid and effective emergency response requires coordination with local emergency responders and maintenance of emergency resources such as an emergency notification system, first aid kits and automated external defibrillators (AEDs).^{55,117} Supplementing those resources with occupant training on CPR, first aid, AED use and individual and family preparedness can increase individual response time and help improve survival rates; CPR and AED training alone can increase victim survival rates by nearly 40%.^{110,117} In food allergy emergencies, quick access to and immediate availability of epinephrine is essential.^{116,118}

Part 1 Promote Emergency Resources (Max: 1 Pt)

For All Spaces:

Resources are in place that support emergency response, including at least three of the following:

- a. At least one first aid kit per floor.
- b. AEDs accessible to any occupant within 100 meters and adoption of routine maintenance and testing schedule. The locations of building AEDs are identified through posters, signs or other forms of communication other than on the AED itself.
- c. Undesignated epinephrine auto-injectors for food allergy emergencies.
- d. Rides for employees subsidized or reimbursed by at least 50% to destination of need for emergency situations (e.g., urgent medical needs, personal or family emergency), including from home to work as needed (e.g., during public transit shutdown).
- e. Information indicating emergency procedures (e.g., containment and response strategies for infectious disease outbreaks, evacuation during fire or earthquake, shelter-in-place during active shooter) available to all guests upon entrance to the building.
- f. Building emergency notification system with auditory and visual indicators of emergency (e.g., public address systems, flashing lights).

At least two of the following are in place:

- a. Emergency response team for medical emergencies, including at least one certified medical professional, first responder or other qualified personnel who has received emergency medical training (e.g., Emergency Medical Technician, paramedic, police, fire service, individuals certified in advanced first aid) present within the building during regular business hours.
- b. Security or crisis response team for human-caused disruptions (e.g., civil unrest, active shooter).
- c. Annual availability to regular occupants of a certified training course on CPR, first aid and AED usage.

- d. Trainings to promote emergency preparedness available to regular occupants that address at least the following topics:
1. Creating evacuation or sheltering plans.
 2. Building emergency kits, supplies and go-bags.
 3. Planning communications with family or primary contacts in case of emergency.
