

SH02 PROVIDE HEALTH BENEFITS | O (MAX: 1 PT)

Intent: Support the overall health and well-being of individuals and their families by offering comprehensive health benefits, policies and services.

Summary: This features requires projects to provide access to essential and on-demand health services.

Issue: Access to basic healthcare services is one of five key pillars that form the social determinants of health.¹⁶² Access includes physical or geographic access, affordability and quality or acceptability of care, and access varies based on race, ethnicity, socioeconomic status, age, sex, disability status, sexual orientation, gender identity and location.¹⁶³

Solutions: Basic essential healthcare services include medical, dental, vision, mental health, substance use, preventive screenings, disease management and biometric assessments.¹⁴⁴ Providing free on-site flu vaccines with education on good health habits can increase vaccination rates and reduces flu cases.¹⁶⁴ Providing timely access to health services can relieve both actual and perceived barriers to care.^{143,144} Studies demonstrate that the overwhelming majority of employees seek one-on-one benefits consultation and flexible coverage options so they can opt into coverage that best meets their individual schedule and health needs.¹⁶⁵

Part 1 Part 1 (Max: 1 Pt)

For All Spaces:

The following requirements are met:

- a. A health benefits plan is available to all eligible employees and their designated dependents (e.g., spouse, domestic partner, child, parent, parent-in-law, grandparent, grandchild, sibling) at no cost or subsidized that includes the following services:
 1. Medical care.
 2. Dental care.
 3. Vision care.
 4. Sexual and reproductive health services, including obstetrics and gynecology (OB-GYN) services and sexually transmitted infection (STI) testing and treatment.
 5. Medication/prescription coverage.
 6. Essential immunizations based on region.
 7. Preventive screenings and biometric assessments.
 8. Tobacco cessation programs.
 9. Infectious disease testing (e.g., tuberculosis, malaria, COVID-19) during a regional or global infectious disease outbreak, epidemic or pandemic as declared by a regional or global public health agency (e.g., WHO, disease control and prevention centers or equivalent institution)
- b. Confidential benefits consultations are available with clearly identified and qualified support staff (e.g., benefits counselor, human resources representative).
