

I05 GREEN BUILDING RATING SYSTEMS | O (MAX : 5 PT)

Intent : To recognize projects that have achieved certification under leading green building rating systems.

Summary : WELL aligns with leading green building rating systems and recognizes projects that balance a commitment to environmental sustainability with a commitment to human health. Policies that reduce the environmental impact of buildings contribute to the advancement of human health at the building and community scale. The environment itself can act as a mechanism to promote and reinforce health by providing fresh air, clean water, affordable and accessible food and green spaces for physical activity and social connection. By balancing sustainability and human health considerations, both people and planet can thrive.

PART 1 ACHIEVE GREEN BUILDING CERTIFICATION (MAX : 5 PT)

For All Spaces:

The following requirement is met:

- a. The project is currently certified in a green building rating system approved by IWBI and listed on IWBI's website ([Reference](#)).

Note :

Projects receive the full five points in Innovation for pursuing a green building rating system. Projects cannot receive more than five points for pursuing additional green building rating programs.
